

# MVH SUSTAINABILITY Checklist

## MVH SUSTAINABILITY MISSION STATEMENT

To help create a more sustainable future for people, pets and planet, the Mars Veterinary Health approach to sustainability focuses on the three pillars of Climate Change, Waste Management, and Education & Engagement.

Mars Veterinary Health proudly contributes to Mars, Incorporated's Net Zero Roadmap to achieve net zero greenhouse gas emissions across the full value chain by 2050. To learn more about other sustainability actions across MVH, read the MVH Sustainability Actions Meeting Card.

## CLINIC SUSTAINABILITY MISSION STATEMENT

Avonvale Veterinary Centres is committed to using the Mars Veterinary Health Sustainability Checklist to identify existing and new services, products and ways of working, to enable sustainable and world class veterinary care.

We aim to help create a healthier planet for future generations of people and pets by:

- Delegating responsibility to lead the MVH Sustainability Checklist for our clinic to:  
William Brookes (Green Champion) and Kate Webb (Sustainability Lead and Practice Manager)
- Prioritize the following three checklist actions in 2026 (\*including but not limited to):
  - Reusable Medical Equipment
  - Flexible Plastic collection
  - Reusable sterilization alternatives

Signed: William Brookes Date: 24/4/26

Green Champion

Signed: Kate Webb Date: 24/4/26
