

## Kenilworth Surgery

Here's some extra information about our Kenilworth Surgery to help you plan your visit.

Our Kenilworth surgery has a car park in front of the building.  
The surgery entrance is through the wooden door.

When you arrive at the surgery, please go the reception desk and tell them who you are and your pet's name.

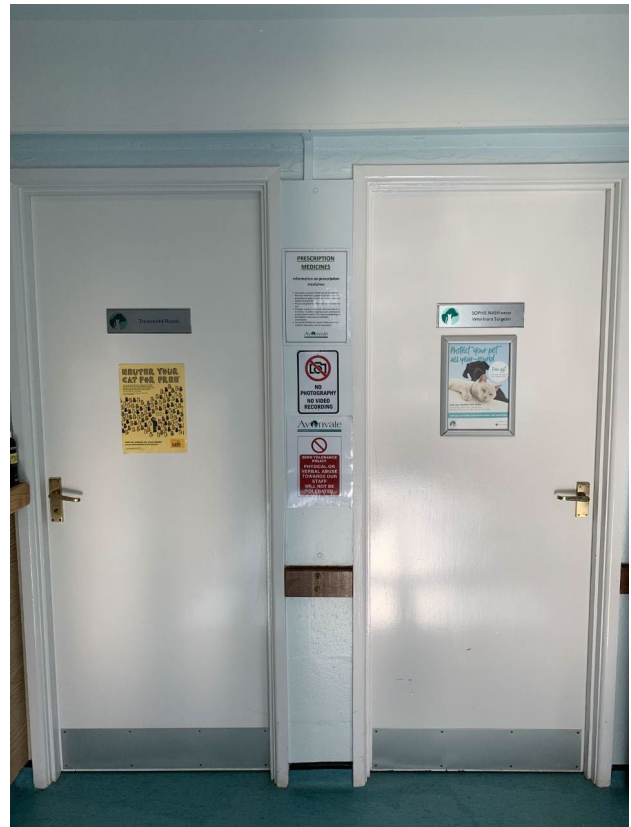

There's a small separate waiting area for cats. You can put their basket on this table.

A member of staff might help you to weigh your dog on these scales which are in the corner of the waiting room ...

When it's time for your appointment, the vet or nurse will call you into the consult room.

On the photos below are our consult rooms. The vet or nurse usually stand on the side nearest to the computer. There's space for you to stand with your pet on the other side of the table.

At the end of your consultation, the vet or nurse will direct you back to the reception desk.
