Tapeworm treatment is required when travelling with dogs (not cats or ferrets) from Great Britain to EU listed tapeworm free countries including Northern Ireland, Malta, Ireland, and Finland. These dogs must be treated for tapeworm by a veterinary surgeon not more than 120 hours (5 days) and not less than 24 hours before the time of entry into one of these countries and the treatment certified in the relevant section of the AHC. Please select one of the following options to confirm whether your dog will need tapeworm treatment:

I am entering the EU via Northern Ireland, Malta, Ireland or Finland      Yes  No

**NB** before returning to Great Britain dogs must be treated for tapeworm not less than 24 hours, not more than 120 hours (5 days) before time of entry except for return from Northern Ireland, Finland, Ireland, or Malta. This must be done by an EU vet who must also certify this in the relevant section of the AHC.

If you are leaving Great Britain on a short trip returning within 120 hours (5 days) you must have this treatment done by a veterinary surgeon before leaving.

I am returning from the EU within 5 days      Yes  No

**I declare that the information entered above is accurate and correct and can be used by Official Veterinarian to complete an Animal Health Certificate (AHC).**
